TO ALL DEPARTMENTS:

In accordance with its policy to establish a nation-wide program of procuring Federal printing needs from commercial sources, the Joint Committee on Printing has directed a survey to be made of Government printing facilities in the Washington, D.C. area.

Scheduled to begin on or about January 21, 1969, it will be the purpose of the survey to determine by volume and type what printing, currently produced in Government plants, can feasibly and practicably be procured from commercial sources in this area.

Prior arrangements for each step of the survey will be effected by a Joint Committee on Printing staff representative with an appropriate representative of each department as it becomes involved.

Yours very sincerely,

Acting Chairman
